

TABLE OF CONTENTS

	<u>PAGE</u>
EXECUTIVE SUMMARY	ES-1
Current Conditions	ES-1
Vermont Transportation Policy Plan	ES-2
Regional Economic Impacts	ES-2
Objective and Approach	ES-2
Citizen Participation and Outreach	ES-3
Transportation Related Problems	ES-3
Alternatives for Transportation Improvement	ES-7
Recommended Transportation Improvements	ES-11
Transportation Planning Initiative	ES-11
CHAPTER 1 - INTRODUCTION	1-1
Vermont Transportation Policy Plan	1-1
Study Objective	1-3
Scope of the Final Report	1-3
Transportation Planning Initiative	1-4
Project Development Process	1-4
CHAPTER 2 - REGIONAL SOCIO-ECONOMIC AND ENVIRONMENTAL ISSUES	2-1
Economic Growth	2-1
Economic and Demographic Profiles	2-2
Regional Plans, Growth Centers Policies and Transportation Infrastructure	2-3
Forecast for Population, Housing and Employment 1992-2012	2-9
Methodology	2-12
Town Resources	2-16
CHAPTER 3 - TRANSPORTATION SYSTEMS	3-1
Public Transportation	3-3
Deficiency Analyses	3-24
Sufficiency Rating	3-31
Traveler Preference/Origin Destination Survey	3-33
Transportation Demand Modeling	3-39
Current and Future Traffic Projections	3-47
Analysis of Truck Movements	3-58
Factors Influencing Future Traffic Demand	3-63

TABLE OF CONTENTS (Cont'd)

CHAPTER 4 - ALTERNATIVE TRANSPORTATION IMPROVEMENTS	4-1
Committed and Other Transportation Improvements	4-2
Improvement Project Selection and Criteria	4-3
Evaluation Framework	4-3
Current and Future Performance	4-6
Level of Service Standard	4-6
Proposed Transportation Improvements	4-7
Basic Safety Improvements	4-7
Paved Shoulders	4-8
Sight Distance/Horizontal/Vertical Realignment	4-9
Auxiliary Lanes	4-10
Intersection Improvements	4-12
Access Control/Curb Cut Management	4-14
Town Based Rideshare Matching	4-15
Rider Shelters/Rider Accessibility	4-18
Pedestrian/Bikeway Improvements/Paved Shoulders	4-19
Sidewalk/Pedestrian Crossings	4-20
Purchase Right-of-Way to Preserve Corridor	4-21
New Corridor Capacity	4-22
Public Transit/Ridesharing Alternatives	4-23
Public Transit Demonstration	4-23
Park and Ride Demonstration Program	4-28
Intermodal Freight	4-31
Highway Facility Improvements	4-34
Operations and Safety Improvements	4-39
Bypasses and Realignments	4-41
Brandon	4-41
Middlebury	4-46
Pittsford	4-49
Wallingford	4-54
Traffic Diversion of New Alignments/Bypasses	4-56
Economic Impacts of Highway Improvements and Bypasses	4-56
Alternative Alignments: Vergennes and North	4-64
Summary and Conclusions	4-71

TABLE OF CONTENTS (Cont'd)

CHAPTER 5 - PROGRAM OF TRANSPORTATION IMPROVEMENTS	5-1
Transportation Projects	5-1
Principles Guiding Improvements Selection	5-2
Improvements By Problem Area	5-3
Program Phasing	5-5
Program of Transportation Improvements	5-6
Project Development Process	5-9
Sources of Funding/Revenue	5-11
Summary	5-12
CHAPTER 6 - PUBLIC PARTICIPATION	6-1
Phases in Citizen Participation	6-1
Phase I - Project Introduction	6-1
Phase II - Presentation of Problems/Opportunities	6-3
Phase III - Discussion of Alternatives	6-4
Phase IV - Study Team's Conceptual Plan	6-4
Summary of Public Comments	6-4
Vergennes and North	6-4
Rutland to Vergennes	6-6
Rutland and South	6-8
Final Meeting Round	6-9
Summary and Conclusions	6-10

2-13	Environmental Constraints - Charlotte	
2-14	Environmental Constraints - Shelburne	
2-15	Environmental Constraints - South Burlington	
2-16	Environmental Constraints - Danby/Dorset	
2-17	Historic Places Town of Middlebury	2-34
2-18	Historic Places Middlebury Village Area	2-35
2-19	Historic Places Middlebury Village Historic District	2-36
3-1	Regional Passenger Transportation Planning Zone	3-4
3-2	Schedule of Service	3-6
3-3	Existing Park and Ride Lots	3-12
3-4	Potential Sites in U.S. 7 Corridor	3-15
3-5	Average Daily Traffic Volumes (1990) Addison and Chittenden Counties	3-26
3-6	Average Daily Traffic Volumes (1990) Bennington and Rutland Counties	3-27
3-7	Accident Spot Map (Addison and Chittenden Counties)	3-29
3-8	Accident Spot Map (Bennington and Rutland Counties)	3-30
3-9	Operational and Safety Deficiencies (Addison and Chittenden Counties)	3-34
3-10	Operational and Safety Deficiencies (Bennington and Rutland Counties)	3-35
3-11	Purpose of Trip	3-36
3-12	Trip Frequency	3-37

ILLUSTRATIONS (Cont'd)

3-13	Trip Frequency vs. Vermont Residency	3-40
3-14	Vehicle Occupancy Rates	3-41
3-15	Current/Future Traffic Demand (Addison and Chittenden Counties)	3-49
3-16	Current/Future Traffic Demand (Bennington and Rutland Counties)	3-50
3-17	Existing Level of Service - 1991 (Addison and Chittenden Counties)	3-54
3-18	Existing Level of Service - 1991 (Bennington and Rutland Counties)	3-55
3-19	Future Level of Service - 2012 (Addison and Chittenden Counties)	3-56
3-20	Future Level of Service - 2012 (Bennington and Rutland Counties)	3-57
3-21	Estimated Daily Truck Volumes (Addison and Chittenden Counties)	3-60
3-22	Estimated Daily Truck Volumes (Bennington and Rutland Counties)	3-61
3-23	Survey Response - Heavy Trucks	3-62
4-1	Public Transportation/Ridesharing Strategies	4-17
4-2	Operational and Safety Improvements (Addison and Chittenden Counties)	4-35
4-3	Operational and Safety Improvements (Bennington and Rutland Counties)	4-36
4-4	Highway Improvements Alternatives (Addison and Chittenden Counties)	4-37
4-5	Highway Improvement Alternatives (Bennington and Rutland Counties)	4-38
4-6	Alternative Improvements - Town of Brandon	4-44
4-7	Alternative Improvements - Town of Middlebury	4-47
4-8	Alternative Improvements - Town of Pittsford	4-51
4-9	Alternative Improvements - Town of Wallingford	4-55
4-10	Travel Volume Analysis	4-65
4-11	Environmental Impacts	4-67
6-1	Public Participation Process	6-2

TABULATIONS

TABLE		<u>PAGE</u>
ES-1	Twenty (20) Year Transportation Improvement Program	ES-13
3-1	Criteria for Future Site Selection	3-14
3-2	Potential Site Evaluation for Park and Ride Lot	3-16
3-3	Human Service Agency Transportation Service Characteristic Region 1	3-19
3-4	Human Service Agency Transportation Service Characteristic Region 8	3-20
3-5	Human Service Agency Transportation Service Characteristic Region 4	3-21
3-6	Vermont Transit Schedule	3-23
3-7	Highest Accident Rates by Town	3-31
3-8	Lowest Sufficiency Ratings by Town	3-32
3-9	Trip Frequency Distribution by Trip Purpose	3-38
3-10	Vehicle Occupancy Distribution by Trip Purpose	3-42
3-11	Trip Table Summary - 1992	3-43
3-12	Trip Table Summary - 2012	3-45
3-13	Type of Trip Distribution by Zone - 2012	3-46
3-14	1992 and 2012 Traffic Projections	3-48
3-15	Demographic and Travel Trends Summary	3-64
3-16	Average Annual VMT Vehicle Trips and Trip Length	3-65
3-17	Average Vehicle Occupancy for Selected Trip Purpose	3-66
3-18	Distribution of Journey-to-Work Trips by Usual Mode	3-67
3-19	Commuting Patterns of Home-to-Work Trip by Mode	3-67
4-1	Capital Program and Transportation Improvement Projects	4-4
4-2	Public Transportation Demonstration	4-25
4-3	Peak Hour Performance Evaluation - 1992	4-26
4-4	Peak Hour Performance Evaluation - 2012	4-27
4-5	Journey-to-Work Performance Evaluation - 1992	4-30
4-6	Comparative Evaluation - Peak Hour	4-32
4-7	Impacts of Operational and Safety Improvement	4-40
4-8	Percentage Traffic Diversion - 1992	4-57
4-9	Percentage Traffic Diversion - 2012	4-58
4-10	Roadway Realignment Performance	4-59
4-11	Comparative Analysis of the Change in Status of Business	4-61
4-12	Economic Impacts of Realignments	4-62
4-13	New Alignment Diversion	4-72
4-14	Summary of Transportation Improvement Applicability and Effectiveness	4-74
5-1	Improvement Program Phasing	5-7
5-2	Conceptual Project Development Process	5-10
