

## *Energy Committee Proclamation for 2010 Way to Go! Commuter Challenge*

**Whereas**, our system of transportation relies largely on private automobiles; and

**Whereas**, driving alone produces more pollution and costs more money over time than adoption of other methods of mobility; and

**Whereas**, use of transportation alternatives other than a private automobile encourages more physical activity and thereby promotes long-term health and addresses mounting health concerns facing Vermont; and

**Whereas**, our environmental quality is tied to clean air and water, and driving less will reduce pollution and help protect these resources; and

**Whereas**, the Way to Go! Commuter Challenge helps individuals, businesses, and Vermont communities address these issues; and

**Whereas**, \_\_\_\_\_ wants to participate in the Way to Go! Challenge;  
*Name of community energy / futures committee*

**NOW THEREFORE**, we hereby commit to encouraging residents of our community to participate voluntarily in the 2010 Way to Go! Community Challenge.

***Way to Go! Community Challenge: May 17 - 21, 2010.***

\_\_\_\_\_  
*Signature representative of town or committee*

\_\_\_\_\_  
*Date*
